

INNOVATIONS FOR LIVING®

Supreme® Shingles

Supreme® Desert Tan'

Supreme® Shingles

Supreme® three-tab shingles—the smart choice when you need to balance curb appeal, weather resistance and value. *Supreme* shingles come with a 25-Year Limited Warranty, 60-MPH Wind Resistance Limited Warranty, and Class A UL Fire Rating—the industry’s highest. Algae Resistance is also available on a regional basis. Visit roofing.owenscorning.com to learn more.

ENERGY STAR® is for roofs too

Similar to the energy-efficient appliances in your home, roofing products can provide energy-saving qualities. Owens Corning™ *Supreme* roofing shingles in Shasta White can help reduce your energy bills when installed properly. These shingles reflect solar energy, decreasing the amount of heat transferred to a home’s interior—and the amount of air conditioning needed to keep it comfortable. Actual savings will vary based on geographic location and individual building characteristics. Call 1-800-GET-PINK® or 1-888-STAR-YES for more information.

REGIONAL COLOR AVAILABILITY MAP

[†] See actual warranty for complete details, limitations and requirements.

^{**} Available without Algae Resistance in Service Area 12 (see map).

[‡] Applicable in most Service Areas.

[†] Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.

^{††} Applies for all areas that recognize Miami-Dade County Building Code.

[‡] Applicable only in Service Area 3 (see map).

The essentials for a healthy roofing system.

It takes more than just shingles to create a high-performance roof. It requires a system of products working together. Owens Corning™ Roofing Essentials™ Accessory Products work with our shingles to make up a roofing system that helps provide maximum durability for your roof. And the most protection for your home.

- a VentSure® Ventilation Products.** Help protect a roof from premature failure by helping remove heat and moisture from the attic. 
- b PINK® Fiberglas™ Blown-In Insulation.** Tiny air pockets trapped in the insulation resist the passage of heat flow.
- c Owens Corning™ Hip & Ridge Shingles.** Help protect the ridge vent and add an attractive, finished look to a roof's hips and ridges.
- d Owens Corning™ Shingles.** Add durable beauty to a home. Shingles are the first line of defense against the elements.
- e Owens Corning™ Underlayment Products.** Add an extra layer of protection between the shingles and the roof deck to help prevent damage from wind-driven rain.
- f WeatherLock® Self-Sealing Ice & Water Barrier Products.** Help guard vulnerable areas where water can do the most damage to a roof: eaves, valleys, dormers and skylights.
- g Owens Corning™ Starter Shingle Products.** The first step in the proper installation of shingles.
- h Owens Corning™ Undereave Ventilation Products.** Help prevent moisture buildup in the attic by working with ridge vents to keep air moving.
